Actors and Manipulators : Fred Ladoué et Mathias Piquet-Gauthier

Authors : the same

PRESENTATION

Theatre of cinematographer objects? It is about a short film broadcast live before the spectators. They can follow the progression as it is projected on a giant screen above the stage. Revisiting various puppet show techniques, this show also uses various photographic techniques (panoramic, travelling, zoom, subjective camera, etc...) A translator into sign-language accompanies the two handymen projectionists giving real magic and an unusual artistic world to the spectators.
