PRESENTATION

This show revisits classical circus acts (acrobatics, clowning, dressage) using a chest of drawers under a tent. The work relies on a theatre of objects and figurines with a meticulous Mechanical system operated by Monsieur Zygote. A circus with reference to Alexander CALDER, who offers his public the chance to relive the delight and magic of the arts of the Big Top all in 52 minutes.

This show is aimed at a young audience and invites them to discover everyday objects in a spectacular form (figurines, kitchen utensils, toys). The manipulation and the production of objects have always been a “child’s game”. Thanks to M. Zygote everything becomes a source of wonderment.
